Equitable Life of Canada ®

Your Equitable Life benefits card is a convenient way to carry your policy and certificate number.

Present this card when filling prescriptions at the pharmacy. Your Pharmacist can tell you if your prescription is covered and will submit your drug claim on your behalf. If you forget to present your card, you will have to pay in full and submit a claim afterwards to get your covered expenses reimbursed.

Present this card to your dentist if your plan includes dental coverage so that your insurance details can be kept on file.

Pack this card when traveling if you have out of province coverage. It has important medical emergency numbers to access your Travel Assist benefit, including the 24-Hour Hotline and identification number.

Use your policy and certificate number to activate your online group benefits account.
Visit www.equitable.ca and log in to Group Benefits as a Plan Member to access benefits and services, including: claims, coverage, and health and wellness resources.

This benefits card is valid if your coverage under the policy remains in effect and the policy remains in force.

Enjoy your benefits!
